SUMMARY

Supply chain professional with 2.5+ years experience optimizing supply chain operations for world-class organizations. Galvanized by process improvement, I lead strategic initiatives, seek out growth opportunities, and leverage cross-functional teamwork to provide exceedingly complex business solutions. With a strong understanding of the entire value stream, as well as full-stack web development, I provide tactical, strategic, and technical problem solving skills.

EXPERIENCE

Order Fulfillment Specialist
Advanced Micro Devices   **July 2017 - Present, Austin, TX**
- Subject matter expert for the analysis, commitment, and delivery of $6 billion worth of Ryzen, Epyc, and Radeon products.
- Process owner for execution, data management, reporting workflows, and weekly state-of-the-business presentations.
- Led multiple Lean Six Sigma Green Belt projects; collaborating with logistics, business units, sales, and product planning; reducing process touch points by 90%, improving data accuracy by 28%, automating reports, and generating annual cost savings of $5 million.
- Awarded an Executive Spotlight for producing a macro-enabled report and Power BI dashboard that identifies cost saving opportunities by avoiding US tariffs through strategic fulfillment sourcing, amounting to $1 million in annual cost savings.
- Developed an automated excel report that identifies inventory in non-finished goods locations that are qualified to satisfy customer orders; avoiding additional labor and raw material costs of $1 million.
- Skills Used: Excel, Visio, SQL Server, Power BI, Knime, SAP ERP, Sharepoint, Git, VS Code, Python, T-SQL, VBA.

Intern
Energy Alloys   **May 2014 – Aug 2014, Singapore**
- Assigned to providing a shop floor process improvement for a warehouse transition project.
- Presented to the manufacturing director a shop floor redesign proposal, implementing a straight-line flow of raw material, leading to a 20% improvement in order cycle time.

PROJECTS

Ryzen Product Line Available To Promise Data Enhancement
- Initiated a Lean Six Sigma Greenbelt project focused on revamping the Available To Promise (ATP) data pipeline.
- Collaborated with ATP end users (business units, finance, product planning, logistics) to identify reporting requirements, process pain points, and data inaccuracy root cause analysis.
- Created a SQL Server database to automate 90% of non-value added (NVA) touch points, new data cleanup, and data warehousing.
- Project ROI of 28% data accuracy improvement and $3 million in annual cost savings based on historical totals of wasted shipping, labor, raw material, and manufacturing costs resulting from the data discrepancy.
- Skills Used: T-SQL, SQL Server, VBA, Excel, Powerpoint, Minitab.

EDUCATION

Bachelor of Business Administration – BBA, Supply Chain Management
Texas A&M University · College Station, TX · 2017

COURSEWORK

Executive Education Professional Certification – Data Analysis & Visualization
The University of Texas at Austin, McCombs School of Business · Python, VBA, T-SQL, Statistical Methods, Forecast Modeling

Lean Six Sigma Greenbelt Certification
AMD Lean Six Sigma Academy · DMAIC, 8 Wastes, Root Cause Analysis, NVA Analysis, Project Management

SKILLS
